## about

As a full-stack developer, my portfolio showcases my skills and experience in designing and building web applications from start to finish. It contains a collection of my past projects, each demonstrating my technical abilities and problem-solving skills. Whether it's a front-end or back-end project, I've got it covered. I take pride in my ability to create responsive and dynamic web interfaces that leave a lasting impression on users.

---

## work experience

### Software Trainee at @ZohoCorporation May 2024 - Present

I am a trainee at Zoho Corporation where I am gaining valuable experience and honing my programming skills. I love the challenge of solving complex problems and I am always pushing myself to learn new technologies and programming languages..

---
